

CHEM 200 & 202 Syllabus – Spring 2022

Contact Information:

Email (for all needs): chem200@sdsu.edu

Website: <https://sdsuchem200.sdsu.edu/> (Website is meant for waitlisters and has everything except: grades and Turnitin. For the previous two items please find on Canvas when you are enrolled. **The CHEM 200 Website will close after Exam 1)**

Instructors:

Professor: Theresa Carlson, M.A.

Lecture (ENS-280): 11:00 am - 11:50 am MWF

Office: GMCS-213B

Phone: 619-594-5481

Helproom Hours (MSLC/Zoom): 9:00 am – 10:00 am Mondays & Wednesdays

Professor: Gregory Holland, Ph.D.

Lecture (Zoom): 2:00 pm - 2:50 pm MWF Zoom: <https://SDSU.zoom.us/j/83286068641>

Office: GMCS-213C

Phone: 619-594-1596

Helproom Hours (MSCL/Zoom): 3:00-5:00 pm Mondays

Lab Coordinator:

Theresa Carlson, M.A.

Office: GMCS-213B

Phone: 619-594-5481

Office hours: By Appointment Only

Effective Spring 2022, students who register for face-to-face classes are expected to attend as indicated in the course schedule. Faculty teaching face-to-face courses will not be required to create a new, alternative on-line class as an accommodation for any student. **Compliance with CSU / SDSU vaccination and facial covering policies is required.**

The first two weeks of the semester will be online. All lecture, lab, and discussion zoom links will be provided on Canvas as well as on the CHEM 200 website sdsuchem200.sdsu.edu

Students with medical conditions that would present a COVID-related risk in a face-to-face instructional setting should contact the Student Ability Success Center (<https://sdsu.edu/sasc>) to begin the process of getting support. Students who do not adhere to the [Covid19 Student Policies](#) or the directives of their faculty will be directed to leave the classroom and will be referred to the Center for Student Rights and Responsibilities.

Do not come to campus if you do not feel well. Remain home and monitor your symptoms and seek medical attention as needed.

CHEM 200 & 202 Student Help Room will be available in the Math & Stats Learning Center (MSLC) located on the third floor of Love Library in room LL328. The MSLC will have chemistry tutors as well as TA help hours. A schedule of chemistry tutors is available through <https://mlc.sdsu.edu/>. A schedule for TA office hours at the MSLC will be made available at the end of the first week of the semester. **The help hours for both Instructors and TAs will be provided on Zoom through the MSLC website. The tutors will be available in-person and via zoom in the MSLC.**

I highly recommend that you take advantage of the tutoring services as well getting help from any of the Chem 200 & 202 TAs. These are opportunities to ask tutors and/or teaching assistants questions that arise during your studies. Any student may attend any of the Chem tutoring hours or any TA help hour and you may attend as many as you like. Take advantage of these services, they are there to help you. The weekly schedule for TA hours will be available on Canvas at the end of the first week. Again, I urge you to take advantage of these free tutorials, discussions of lecture/lab material, and homework help.

Textbook and Online Homework:

Openstax Chemistry Book 2e: <https://openstax.org/details/books/chemistry-2e> (**FREE to download PDF via the CHEM 200 website, as well**). A hardcopy will be available in the bookstore for those who like to have a bound copy. On Canvas we will have a link to Redshelf for you to access the ebook.

OWL Online Homework: <http://www.cengage.com/owlv2/>

The **Lab Manual** with integrated **Notebook & Access Codes for Hayden McNeil** is available in the bookstore.

Lab Equipment will be available for purchase in the bookstore. They will have lab aprons/coats, safety glasses, gloves, and other useful lab equipment.

Calculator needs to be a scientific but non-graphing and non-programmable. The recommended calculator for this course is the Casio fx-300ms-plus calculator. **Graphing calculators are NOT allowed in this course!**

Enrolled students: *It is absolutely crucial that you attend the first three laboratory periods. Failure to do so may result in your spot in the laboratory section being given to another student.* Notify the laboratory coordinator (chem200@sdsu.edu before the first week of class) if you must miss a laboratory period in the first week of the semester for a legitimate reason. You must be able to attend the laboratory section of CHEM 200 or 202 for which you are enrolled; otherwise, you must drop the course and attempt to waitlist a different section that you can attend. If you decide to drop the course, inform the laboratory coordinator by email as soon as possible so your place can be given to a waitlister.

Waitlist: If you are attempting to waitlist CHEM 200 or 202, you should attend every possible lab section, discussion, and lecture that will fit into your schedule. And keep track of which discussion and lab you attended. **Please go to the CHEM 200 website: sdsuchem200.sdsu.edu for materials for this course.** Remember, you are 100% responsible for all assignments that are due and to keep up with the work. **Waitlist students who are attempting to register for the course should email: chem200@sdsu.edu with their name and RedID info ASAP.**

Online Resources:

- **Canvas:** Canvas will be used in this course. Enrollment in Canvas is automatic if you are currently enrolled in this course. Canvas will contain information such as the course syllabus, all the experiments, handouts, lab handouts, lecture slides, and other important course information. It will be used for obtaining the syllabus, course communications, Turnitin assignments for **lab reports & prelabs**, and grade dissemination.
- **Chem200 Website:** <https://sdsuchem200.sdsu.edu/> will be used for waitlisters to obtain course content before they are enrolled into the course. **The CHEM 200 website will close after Exam 1.**
- **OWL:** will be used extensively for chapter online problem sets, Chapter Assessments, exams as well as Pre-Assignments for Lab Experiments. *Immediate Access Course:* Some or all of the required materials for this class are provided in digital format within Canvas. The materials are available by the first day of classes and are free through the add/drop date. The SDSU add/drop deadline is at 7:59 p.m. PDT but you have until 11:59 p.m. PDT to opt out of Immediate Access. Unless you opt out of Immediate Access by 11:59 p.m. PDT on the add/drop date, your SDSU student account will then be charged the special reduced price for use of the materials for the remainder of the semester. Please visit www.shopaztecs.com/immediateaccess for additional information about Immediate Access pricing, digital subscription duration, print add-ons, opting out and other frequently asked questions.
- **Lab Simulations (Hayden McNeil):** is to help you prepare yourself for the experiment you will be doing in lab. There will be calculations, safety questions, and topic questions to help you understand what you are doing in the experiments. **You will have two attempts for the quiz to better your score. Note: Hayden McNeil is not part of immediate access. The access codes can be found in the CHEM 200 & 202 Lab Manual's front page.**

USE CHROME FOR OWL and Lab Simulations!!!

Supplemental Instruction (SI): *Free* study sessions designed to keep you up-to-date with the course. SI Sessions are open to all students and you can attend as many sessions as you want throughout the semester. Participation is completely *voluntary* and the instructor does not know who participates. SI Sessions are led by an SI Leader, a *current student* who has recently successfully completed the course. Students who participate in SI Sessions typically earn higher final course and exam grades than students who do not participate, sometimes by a half to a full letter grade.

Why Attend SI?

- Keep up with the class material
- Study with other students in live time (don't study alone!)
- Meet other students from the class
- Improve your grade

CHECK OUT THE SI CALENDAR: bit.ly/chem200sicalendar

SI Program: bit.ly/SIatSDSU

Meet the SI Leaders: caa.sdsu.edu/supplemental-instruction/leaders

To get the most out of SI, attend early and often.

General Student Learning Outcomes:

Below is a summary of what students should be capable of upon the successful completion of this course.

- Perform calculations with the correct number of significant figures with a variety of SI units.
- Name and write a range of simple ionic and molecular formulas.
- Describe the structure of atoms and the various classes of compounds that they can form.
- Classify the different states of matter and describe each state at the molecular level.
- Use Avogadro's number and reaction stoichiometry to calculate the amounts of reactants and products involved in chemical reactions.
- Write and balance chemical reactions.
- Describe the major classes of chemical reactions at a molecular level and perform stoichiometric calculations related to these reactions.
- Describe, manipulate, and use the ideal gas law.
- Describe the kinetic-molecular theory of gasses and how it deviates from real gas behavior.
- Perform calculations on the exchange of heat in thermochemical processes.
- Calculate the enthalpy of chemical reactions.
- Describe and apply the quantum theory rules of atomic structure.
- Describe the electron configurations of many electron atoms.
- Use trends in atomic properties to compare different elements.
- Differentiate and describe the various models of chemical bonding.
- Compare and calculate bond energies.
- Draw and identify molecular structures based on the Lewis and VESPR models.
- Describe covalent bonding in terms of the valance bond and molecular orbital theories.
- Define the various changes of physical states for a substance and quantify the related enthalpy changes.
- Describe and differentiate the various forms of intermolecular forces.
- Describe and predict solubility in terms of intermolecular forces.
- Quantify the influence of solutes on the colligative properties of solutions.
- Quantify the enthalpy changes associated with dissolution of solutes.

OWL Assignments:

Please note there are two OWL pages: OWL Lecture and OWL Labs, which separates the lecture and lab assignments. Before you begin there will be four Getting Started with OWL Assignments in the OWL Lecture, which you **must** complete before you attempt any other assignments in the OWL program. **If you do not see the assignments click on Show All Assignments.** Attempting to use OWL without understanding how the program works can lead to issues later on. Please take notes while you are doing these four assignments since the topics will be covered later.

IMPORTANT REGARDING THE OWL DEADLINES: The OWL program does not allow me to use the :59 so I am giving you one extra minute; my other option was :55 and you lose 4 minutes. So just remind yourself it's due on "Day of the Week" at 11:59 pm so you don't confuse yourself. **We will post an announcement reminding you of the deadlines, the deadlines will be in the lecture slides, on the Canvas Calendar, as well as on the OWL program.**

◆ **Optional: General Chemistry Review (OWL Lecture)** is an assessment review on key chemistry concepts and essential skills to help you determine if you are ready for Chem 200. There will be 34 questions in the quiz that will assess your knowledge on chemistry concepts and essential skills in chemistry.

- **This assignment (the graded quiz) can replace Chapter 1 and 2 Problem Sets; if you choose to do it. You have unlimited tries to receive a perfect score and there will be no 85% adjustment if you choose to do this assignment over the Chapter 1 and 2 Problem Sets.**

◆ **Optional: Math Review (OWL Lecture)** is to help refresh your memory and your knowledge on basic math skills and algebra skills you need in this course.

◆ **Lab Safety Quiz (OWL Labs):** The lab safety quiz must be completed with a grade of 60% or higher before you work in the laboratory. If you fail to achieve a 60% or higher on the online quiz, the lab coordinator will give you a paper quiz. Once you pass the paper lab safety quiz you will be allowed to attend lab. **Note: The lab safety quiz will need to be completed by Friday, February 4th at 11:59 pm. The paper quiz will not replace your original lab safety quiz grade.** Worth 10 points out of 15 for the Lab Safety portion of the grade.

◆ **EH&S REQUIRED Lab Safety Form (Canvas):** This course requires the use and handling of hazardous materials. You must complete the Environmental Health and Safety module and survey in our Canvas course by **Friday, February 4th at 11:59 pm. If you do not complete the form by the deadline you will not be allowed to enter the labs until it has been completed.** Worth 5 points out of 15 for the Lab Safety portion of the grade.

◆ **Lab Pre-Assignment (OWL Labs):** is to help you prepare yourself for the lab you will be doing. There will be calculations, safety questions, and topic questions to help you understand what you are doing in the lab. **This assignment must be completed before coming to lab and will be due on Sunday at 11:59 PM the week of the experiment.**

◆ **Chapter Assessments (OWL Lecture)** are hard deadlines and extensions will not be granted. **You will have two attempts at the chapter assessment.** The Chapter Assessments questions are to assess your learning of that Chapter and to help prepare you for the exam. Do not wait until the last minute to complete the prep.

◆ **Chapter Problem Set (OWL Lecture) policies:**

- There will be a chapter problem set from each of the 11 chapters covered in the text. **Work on the problems several days before it's due so you have time to go to the help room and ask for more help. Never wait until the last day to work on the problem set;** otherwise you will be rushing through the assignment and instead of learning how to break down problems and theories to better equip you for the exams.
- Full points can be obtained for each chapter's problem set by scoring above 85% on the problems for that chapter.
 - A score $74\% = (74\% \div 85\%) \times 10 = 8.7$ points
- It is in your best interest to complete all the problem sets to ensure that you are fully prepared for the exams.

- The adjusted points will be calculated **throughout the semester. Please watch your email for important announcements regarding the uploads.** Errors occur due to incorrect RedID, multiple OWL accounts, and/or your work is in the wrong section.

Note: We highly recommend everyone buys a composition book in order to work on the problem sets, keep good notes and make your studying more efficient. Use the time spent on the Problem Sets as your study time and start creating good habits!

Other Assignments:

◆ **Lab Reports and Pre-labs, not the lab pre-assignment (Canvas):** will need to be submitted to **Turnitin in Canvas** for you to receive a grade for your prelab and lab report. Failure to send your prelab and lab report before your prelab and lab report is due will be an automatic zero. **Prelabs and lab reports that are plagiarized will be an automatic zero and will be reported.** Make sure you turn in the proper prelab and lab report into the correct Turnitin folder in Canvas. Failure to do so will result in a point penalty at the discretion of the lab coordinator. **If you have issues with submitting your lab report and/or prelab, email chem200@sdsu.edu and your lab TA with a PDF file of the report BEFORE the deadline.** Prelabs are due on Sundays at 11:59 pm **before** the lab period and the lab reports are due Sunday at 11:59 pm **after** the lab period. **There are no extensions on the assignments.**

◆ **Lab Simulations (Hayden McNeil)** is to help you better understand the experiment you have done in person or would have done if we go online for the labs. There will be calculations, safety questions, and topic questions regarding the experiments. **You will have two attempts of the multiple choice quiz and must be completed on Sunday at 11:59 PM after the experiment has been completed.**

◆ **Discussion (Chem 200 only)** is an extra lecture session to go over concepts, calculations, and theory from the lectures. You will need to print the discussion worksheet (provided on the chem 200 website) and try several of the problems by yourself before discussion. The experienced TA will help you with your questions and/or have you ask other students to help bring more of a discussion of concepts that are not being understood. Discussion is worth 10 points for participation and 5 points for a Discussion Wrap-Up, for a total of 15 points. The Discussion Wrap-Up is a couple of questions based on the topics of that week's discussion worksheet. Some discussion sessions will be a review session for the upcoming exam using an app called Kahoot. Kahoot is a game based learning platform: to play, learn, and have fun in a team setting answering questions on the theory and calculations of the upcoming exam.

Note: Your individual grades for each course component will be posted on Canvas. Grades that have been completed from OWL and Hayden McNeil, will be posted the week of your exam dates. You will have a week to check your grades and to email the coordinator of any issues with your OWL and/or Hayden McNeil grades (e.g. they are not showing up). Failure in checking your grades by the deadline will result in a 10-point penalty within a week after the check-up deadline, **afterwards the grades will be left as zeros.** There will be two announcements on Canvas to remind you to check your grades.

Grading:

Your letter grade will be determined by your individual points total for the course. **There will be no curving of the course grades.** Below is a tentative grade range breakdown for each letter grade based on the percentage of total points. The instructors reserve the right to universally modify this grade scale prior to assigning final letter grades.

Letter	Percentage	Letter	Percentage
A	> 90%	C+	68-72%
A-	85-90%	C	63-68%
B+	81-85%	C-	59-63%
B	76-81%	D	53-59%
B-	72-76%	F	<53%

CHEM 200 Grade Scheme					
Item	Submission	Quantity	Value (each)	Total	Percentage
Lab Safety Quiz & EH&S Form	OWL Lab & Canvas	1	15	15	0.8%
Pre-Assignment Labs	OWL Lab	9	5	45	2.5%
Chapter Problem Set	OWL Lecture	11	10	110	6.2%
Chapter Assessment	OWL Lecture	11	15	165	9.2%
Exams	OWL Lecture	4	225	900	50.4%
Lab Simulation	Hayden McNeil	Best 9 out of 10	5	45	2.5%
Lab Reports	Canvas/ Turnitin	Best 9 of 10	20	180	10.1%
Lab Practical	OWL Lecture & In-Person	1	80	80	4.5%
Notebook Check	Paper	1	20	20	1.1%
TA Seminar Report	Paper	1	30	30	1.7%
Discussion	Paper	Best 13 of 14	15	195	10.9%
			Total	1785	100.0%

CHEM 202 Grade Scheme					
Item	Submission	Quantity	Value (each)	Total	Percentage
Lab Safety Quiz & EH&S Form	OWL Lab & Canvas	1	15	15	0.9%
Pre-Assignment Labs	OWL Lab	9	5	45	2.8%
Chapter Problem Set	OWL Lecture	11	10	110	6.9%
Chapter Assessment	OWL Lecture	11	15	165	10.4%
Exams	OWL Lecture	4	225	900	56.6%
Lab Simulation	Hayden McNeil	Best 9 out of 10	5	45	2.8%
Lab Reports	Canvas/ Turnitin	Best 9 of 10	20	180	11.3%
Lab Practical	OWL Lecture & In-Person	1	80	80	5.0%
Notebook Check	Paper	1	20	20	1.3%
TA Seminar Report	Paper	1	30	30	1.9%
			Total	1590	100.0%

Note: Please check your grade frequently, especially after each exam. Email chem200@sdsu.edu if you

think there is a calculation mistake. At the end of the semester, when grades are finalized, email only if there is a calculation mistake.

Course Schedule			
Lecture #	Date	Text Chapter	Topic
1	Jan 19, 2022	Welcome	Syllabus, Class and Lab Overview
2	Jan 21, 2022	Chapter 1	Essential Ideas
3	Jan 24, 2022	Chapter 2	Atoms, Molecules, and Ions
4	Jan 26, 2022	Chapter 2	Atoms, Molecules, and Ions
5	Jan 28, 2022	Chapter 3	Composition of Substances and Solutions
6	Jan 31, 2022	Chapter 3	Composition of Substances and Solutions
7	Feb 2, 2022	Chapter 4	Stoichiometry of Chemical Reactions
8	Feb 4, 2022	Chapter 4	Stoichiometry of Chemical Reactions
9	Feb 7, 2022	Chapter 4	Stoichiometry of Chemical Reactions
10	Feb 9, 2022	Chapter 4	Stoichiometry of Chemical Reactions
11	Feb 11, 2022	Chapter 1–4	Review for Exam 1
12	Feb 14, 2022	Chapter 5	Thermochemistry
13	Feb 16, 2022	Chapter 5	Thermochemistry
14	Feb 18, 2022	Chapter 5	Thermochemistry
15	Feb 21, 2022	Chapter 5	Thermochemistry
16	Feb 23, 2022	Chapter 5	Thermochemistry
17	Feb 25, 2022	Chapter 5/6	Thermochemistry & Electronic Structure and Periodic Properties of Elements
18	Feb 28, 2022	Chapter 6	Electronic Structure and Periodic Properties of Elements
19	Mar 2, 2022	Chapter 6	Electronic Structure and Periodic Properties of Elements
20	Mar 4, 2022	Chapter 6	Electronic Structure and Periodic Properties of Elements
21	Mar 7, 2022	Chapter 6	Electronic Structure and Periodic Properties of Elements
22	Mar 9, 2022	Chapter 6	Electronic Structure and Periodic Properties of Elements
23	Mar 11, 2022	Chapter 5–6	Review for Exam 2
24	Mar 14, 2022	Chapter 7	Chemical Bonding and Molecular Geometry
25	Mar 16, 2022	Chapter 7	Chemical Bonding and Molecular Geometry

Course Schedule			
Lecture #	Date	Text Chapter	Topic
—	Mar 18, 2022	No Class	No Class
26	Mar 21, 2022	Chapter 7	Chemical Bonding and Molecular Geometry
27	Mar 23, 2022	Chapter 7	Chemical Bonding and Molecular Geometry
28	Mar 25, 2022	Chapter 8	Advanced Theories of Covalent Bonding
—	Mar 28, 2022	Holiday	No Class
—	Mar 30, 2022	Holiday	No Class
—	Apr 1, 2022	Holiday	No Class
29	Apr 4, 2022	Chapter 8	Advanced Theories of Covalent Bonding
30	Apr 6, 2022	Chapter 8	Advanced Theories of Covalent Bonding
31	Apr 8, 2022	Chapter 8	Advanced Theories of Covalent Bonding
32	Apr 11, 2022	Chapter 9	Gases
33	Apr 13, 2022	Chapter 9	Gases
34	Apr 15, 2022	Chapter 7–9.3	Review for Exam 3
35	Apr 18, 2022	Chapter 9	Gases
36	Apr 20, 2022	Chapter 9	Gases
37	Apr 22, 2022	Chapter 10	Liquids and Solids
38	Apr 25, 2022	Chapter 10	Liquids and Solids
39	Apr 27, 2022	Chapter 10	Liquids and Solids
40	Apr 29, 2022	Chapter 11	Solutions and Colloids
41	May 2, 2022	Chapter 11	Solutions and Colloids
42	May 4, 2022	Chapter 11	Solutions and Colloids
Exam Schedule (Administered Online in OWL Lecture)			
Date			
Exam 1	Friday, February 11th 3:00 PM — Saturday, February 12th 3:00 PM		
Exam 2	Friday, March 11th 3:00 PM — Saturday, March 12th 3:00 PM		
Exam 3	Friday, April 15th 3:00 PM — Saturday, April 16th 3:00 PM		
Final	Friday, May 6th 3:00 PM — Saturday, May 7th 3:00 PM		

◆ **Exams will be conducted in OWL. You will have 24 hrs to complete the exam starting at 3 PM on the exam date. Once the exam is started you have 2 hrs to complete it.**

Lab Schedule		
Experiment/Activity	Monday Lab	Tuesday Lab
Introduction to Labs & Lab Safety (Online)	January 24, 2022	January 25, 2022
How to Write a Lab Notebook & Pre-lab Worksheets (Online)	January 31, 2022	February 1, 2022
Use of Volumetric Equipment Experiment (In-Person)	February 7, 2022	February 8, 2022
Check-In & An Introduction to Qualitative Analysis Experiment (In-Person)	February 14, 2022	February 15, 2022
Limiting Reagent of Solutions (In-Person)	February 21, 2022	February 22, 2022
Standardization of an Aqueous NaOH Solution Experiment (In-Person)	February 28, 2022	March 1, 2022
Molar Mass of Citric Acid Experiment (5B) (In-Person)	March 7, 2022	March 8, 2022
Calorimetry Part 1: Specific Heat Capacity Experiment (In-Person)	March 14, 2022	March 15, 2022
Calorimetry Part 2: Enthalpy of Reaction Experiment & Heat Capacity of a Calorimeter Experiment (In-Person)	March 21, 2022	March 22, 2022
Spring Recess — No Labs	March 28, 2022	March 29, 2022
Analysis of an Aluminum-Zinc Alloy Experiment (In-Person)	April 4, 2022	April 5, 2022
Freezing Point of Solutions Experiment (In-Person)	April 11, 2022	April 12, 2022
TA Seminar & Check-Out* (In-Person)	April 18, 2022	April 19, 2022
Lab Practical (In-Person and Online, please see note below)	April 25, 2022	April 26, 2022

Note about the Lab Practical: The lab practical will be broken up into **three portions**:

a. **Lab Practical: Simulations (online 36 hour window):** Will test you on experiments via simulations with some math problems as well. There will be no time limit for the Simulation portion of the experiment BUT you need to do it in one sitting. There is no save and exit (yes the button is there but it will submit your grade as is). **Worth 10 points**

b. **Lab Practical: Problem Sets (online 36 hour window):** Will test you on experimental problems similar to what you saw in the experiments via hands-on or data analysis. This has a set time limit of 80 minutes and will need to be completed in one sitting. **Worth 30 points**

c. **Lab Practical: In-person Experiment (during your scheduled lab period):** During your scheduled lab period you will do a single mini-experiment. Please arrive 10 minutes early and have your PPE

on 8 minutes before you come into the lab. You will have the entire lab period to complete the In-person portion of the lab practical. Please note this shouldn't take you more than 80 minutes to complete. **Worth 40 points**

Online Assignment Policy:

The deadlines for the online assignments, including pre-labs, homework, and other assignments are hard deadlines and extensions will not be granted. All assignments will be scheduled with sufficient time to allow you to complete the assignment in advance of the "last minute". *Consequently, you are solely responsible for any failures to complete the assignment by the scheduled time.* Problems such as lack of internet service, OWL site problems, or dogs eating WiFi antennas will not be acceptable reasons for not completing the assignments. *You are encouraged to complete the assignments well before the deadlines to avoid potential technological obstacles.*

If you have any personal technology issues the [Library Computing Hub](#) provides computing and technical support for students.

In the case of an extended system-wide failure the instructors will be notified by the site operator and steps will be taken to accommodate any problems that arise. For all technical difficulties or errors that arise with the **OWL** system **please contact Cengage technical support staff directly by phone and email.** For **Hayden McNeil** system **please contact them** as well. The instructors, lab coordinator, and TAs will be unable to help you resolve anything but the most basic (is it plugged in?) technical problems.

Technology: Provided in your Canvas shell will be a video on the homepage about the layout of the course and this is where **you should start.** It is highly recommended you watch the video and take notes so you won't be lost in this course.

In-person Labs During COVID-19 Pandemic: Please follow all guiding signs and TA instructions while in the lab to maintain proper safety protocols.

Precautions During COVID-19: Face masks must cover mouth and be worn to enter the lab, and at all times while in the lab. Anyone who doesn't follow this policy will be asked to leave the lab immediately. When entering the lab, students' temperatures will be checked, and everyone will need to use hand sanitizer before entering the lab and leaving the lab (this will be provided in the lab). There will be a set pathway all will adhere too. One is an entrance, and one is an exit. There is no entering through an exit or exiting an entrance. **You will also need to show your green medallion when entering the lab.**

Attendance Policy:

For Exams: Attendance for all exams is required, including the lab practical exam. Proper documentation is required to avoid receiving a grade of zero on a missed course component two weeks into the semester (by 02/01/2022). There will be no makeup exams outside of extenuating circumstances (*e.g. illness during the 24 hr exam period*). It is your responsibility to ensure that you will be available for online exams with proper internet accessibility and bandwidth.

Excused absences for exams will only be awarded in the case of a legitimate reasons (illness, scheduled academic/athletic events, court appearances, etc.) as determined by the instructor and will require support documentation. If you are on a sports team, we will need to have your travel letter no later than **02/01/2022.**

Only under exceptional circumstances, as determined by the instructor, will a makeup exam be granted for the final exam.

For lectures: Regular lecture attendance is **strongly recommended.** If you do have to miss class, you should go over the posted lecture slides and recorded lectures that can be found on Canvas and the chem200 website.

For labs and discussion: Attendance in **all** laboratory meetings and discussion is **REQUIRED.** All lab and discussion work, during the semester, must be done in the scheduled period. If you are late by 10 minutes, for your lab or discussion period, the lab/discussion TA will deduct 5 points from your grade; after 20 minutes you will no longer receive credit for the lab period or discussion participation. Under no circumstances will students be allowed to make up lab experiments and/or discussions. **Note that CHEM 202 students are required to attend only the laboratory and not the discussion section each week.**

Note: If you miss one lab and/or discussion the lab and/or discussion will be the dropped assignment. If you have an excused absence that extends beyond one week please email the lab coordinator ASAP.
Medical Absences:

If you must miss class due to illness, injury or emergency. Please note:

- University policy instructs students to contact their professor/instructor/coach in the event they need to miss class due to an illness, injury, or emergency. All decisions about the impact of an absence, as well as any arrangements for making up work, rest with the instructors. **Please see the above Attendance policy.**
- If a student misses class because of COVID-19, either because they have been diagnosed and are quarantined or are required to isolate and would like to request a class excuse letter, the student should send an email to vpsafontdesk@sdsu.edu to notify the university. Student Affairs and Campus Diversity will initiate the process for absent letters to be sent to course instructors, Assistant Deans, and the Provost. Medical documentation may be required prior to the letter being issued.
- [Student Health Services](#) (SHS) does not provide medical excuses for short-term absences due to illness or injury. When a medical-related absence persists beyond five days, SHS will work with students to provide appropriate documentation.
- When a student is hospitalized or has a serious, ongoing illness or injury, SHS will, at the student's request and with the student's consent, communicate with the student's instructors via the Vice President for Student Affairs and Campus Diversity and may communicate with the student's Assistant Dean and/or the [Student Ability Success Center](#).

Other Absences: If you plan to be absent for a religious observance or holiday, notify the coordinator at chem200@sdsu.edu no later than **02/01/2022**.

Test accommodations: SDSU via the [Student Ability Success Center](#) (SASC) provides accommodations for students with documented disabilities or medical conditions covered under the Americans with Disabilities Act (ADA). **In keeping with current public health guidance, we cannot provide arrangements to students without an ADA-qualified disability or medical condition.**

If you are a student with a disability and are in need of accommodations for this class, please contact the Student Ability Success Center at sascinfo@sdsu.edu (or go to sdsu.edu/sasc) as soon as possible. Please know accommodations are not retroactive, and I cannot provide accommodations based upon disability until I have received an accommodation letter from the Student Ability Success Center. SASC registration and accommodation approvals may take up to 10-14 business days, so please plan accordingly.

Policy on Cheating/Plagiarism: There is a zero tolerance policy regarding plagiarism in this course. Any instances of cheating or plagiarism identified by the TA, lab coordinator, or the instructors, will result in a meeting between the instructor and student(s) following which the instance and documentation of plagiarism will be reported to the Academic Senate as well as the student ***receiving a grade of F for the course***. It is your responsibility to know what constitutes cheating and plagiarism. For example, turning in a lab report for a lab that you have not performed, or the results of a lab that you had completed in a prior semester (self-plagiarism), both constitute cheating and plagiarism and will be reported - *all students must perform their own analyses in the labs*.

Preferred Names & Pronouns: Any student who wishes to be addressed by a name other than what is presented in Canvas is encouraged to contact the professor via email with the name you wish to use in this course. Similarly, if you have preferred pronouns that you wish to be addressed by please contact your professor. The professor will communicate your desires to the TAs and all instructional staff will gladly honor your request.

Email: Students are provided with an SDSU Gmail account, and this [SDSU email address](#) will be used for all communications. Per University Senate policy, students are responsible for checking their official university email once per day during the academic term. For more information, please see [Student Official Email Address Use Policy here](#).

Finding Help on Campus: Need help finding help -- an advisor, tutoring, counselling, or emergency economic assistance? The [SDSU Student Success Help Desk](#) is here for you. Student assistants are available via Zoom Monday through Friday, 9:00 AM to 4:30 PM to help you find the office or service that can best assist with your particular questions or concerns.

Sexual violence / Title IX mandated reporting: As an instructor, one of my responsibilities is to help create a safe learning environment on our campus. I am a mandated reporter in my role as an SDSU employee. It is my goal that you feel able to share information related to your life experiences in classroom discussions, in your written work, and in our one-on-one meetings. I will seek to keep the information you share private to the greatest extent possible. However, I am required to share information regarding sexual violence on SDSU's campus with the Title IX coordinator, Jessica Rentto 619-594-6017. She (or her designee) will contact you to let you know about accommodations and support services at SDSU and possibilities for holding accountable the person who harmed you. Know that you will not be forced to share information you do not wish to disclose and your level of involvement will be your choice. If you do not want the Title IX Officer notified, instead of disclosing this information to your instructor, you can speak confidentially with the following people on campus and in the community. They can connect you with support services and discuss options for pursuing a University or criminal investigation. Sexual Violence Victim Advocate 619-594-0210 or Counseling and Psychological Services 619-594-5220, psycserv@sdsu.edu. For more information regarding your university rights and options as a survivor of sexual misconduct or sexual violence, please visit titleix.sdsu.edu or sdsutalks.sdsu.edu.

SDSU Economic Crisis Response Team: If you or a friend are experiencing food or housing insecurity, technology concerns, or any unforeseen financial crisis, it is easy to get help! Visit sdsu.edu/ecrt for more information or to submit a request for assistance.

SDSU's Economic Crisis Response Team (ECRT) aims to bridge the gap in resources for students experiencing immediate food, housing, or unforeseen financial crises that impacts student success. Using a holistic approach to well-being, ECRT supports students through crisis by leveraging a campus-wide collaboration that utilizes on and off-campus partnerships and provides direct referrals based on each student's unique circumstances. ECRT empowers students to identify and access long term, sustainable solutions in an effort to successfully graduate from SDSU. Within 24 to 72 hours of submitting a referral, students are contacted by the ECRT Coordinator and are quickly connected to the appropriate resources and services.

For students who need assistance accessing technology for their classes, visit our ECRT website (sdsu.edu/ecrt) to be connected with the SDSU library's technology checkout program. The technology checkout program is available to both SDSU and Imperial Valley students.

Help control the covid-19 pandemic: Addressing the COVID-19 pandemic is a shared responsibility. Each of us has a role to play in keeping our learning environments and campus as safe as possible. To that effect, it is critical students are aware that SDSU policy requires the wearing of face coverings by faculty, staff, and students on campus except if you are alone in a private office or eating outside while maintaining physical distancing of at least 6 feet. All individuals on campus must also practice physical distancing, stay home if ill, care for common work spaces if you use them, and report if you receive a positive COVID-19 test. Instructions for caring for instructional spaces will be posted in each lab, clinic, or classroom; supplies will be available. Individuals are required to provide their own facial coverings. If students need assistance purchasing facial coverings, please contact the [Economic Crisis Response Team](#).

Chem 200/202 Students: The lab is a face-to-face class. Students shall be required to bring or purchase PPE as part of their class supplies. Students who need financial assistance may contact the [Economic Crisis Response Team](#) for support. The modality of this course is subject to change in connection with evolving public health conditions and recommendations. Students with medical conditions which would present a COVID-related risk and a face-to-face instructional setting should contact the Student Ability Success Center (<https://sdsu.edu/sasc>) to begin the process of getting support. Students who do not adhere to the [Covid19 Student Policies](#), and do not comply with the directives of their faculty, will be directed to leave the classroom, and will be referred to the Center for Student Rights and Responsibilities. All SDSU community members are encouraged to make a commitment to health and safety, please consider signing the [SDSU Health Commitment](#). For additional COVID-19 information, visit the university's [COVID website](#).

Land Acknowledgement: For millennia, the Kumeyaay people have been a part of this land. This land has nourished, healed, protected and embraced them for many generations in a relationship of balance and harmony. As members of the San Diego State University community we acknowledge this legacy. We promote this balance and harmony. We find inspiration from this land; the land of the Kumeyaay. As students, faculty, staff and alumni of San Diego State University we acknowledge this legacy from the Kumeyaay. We promote this balance in life as we pursue our goals of knowledge and understanding. We find inspiration in the Kumeyaay spirit to open our minds and hearts. It is the legacy of the red and black. It is the land of the Kumeyaay.
'eyay e'haan My heart is good.

Am I Ready For CHEM 200:

ASSUME THIS CLASS WILL REQUIRE A MINIMUM OF 15 HOURS OF YOUR TIME PER WEEK TO COMPLETE.

The prerequisites for CHEM 200 are one year of high school chemistry, two years of algebra, and a passing score on the Placement Test, or a passing grade (a C or higher) in Chem 100. Chemistry 200 is a demanding, 5-unit course which requires an enormous amount of time and your commitment to work hard! (Please do NOT take this course unless you are prepared to commit the necessary time and hard work.) It is advisable that you make Chemistry 200 the focus of your semester and that you do NOT overburden yourself with an unmanageable course load while taking this course. YOUR success is our success. and we want you to succeed in this course. YOUR success requires a large time commitment and hard work - please do NOT take this course unless you are willing to allow sufficient time to study, attend ALL lectures, and attend ALL labs with preparation in advance. Writing good laboratory reports also requires a lot of time and preparation prior to lab. You will enjoy your semester in Chemistry 200 - and you will benefit in the sciences so much more from all that you learn - if you allow yourself the time necessary to work hard and succeed. PLEASE ALLOW ADEQUATE TIME IF YOU TAKE THIS COURSE!
